Hi David,

It's true that Doug is working on an ASP.NET book, but it's running late and I don't think the book will be off press until mid-November. But at the moment we don't have anything in a final form that would be suitable for your October 13 course. And no instructors material either.

I would love to send Doug to one of your WebSphere courses, because that's a product line that we're considering for the future, but we just don't have the time right now. I'm hoping that we'll finally get this business back under control by the end of the year, but it remains to be seen.

I'm glad to see that you continue to offer new courses and to upgrade your web site. Frankly, I don't know how you keep up with it all. But I sure do wish you well.

Thanks for your support. And thanks for writing.

Mike
