Subject:	Courseware

Hi ,

I'm representing Leylock IT, the leading Education Center for IBM Software in the Nordic countries. We are looking around for high quality courseware for different kinds of courses.

I'm particular interested in your courseware for IMS, WebSphere, WebSphere MQ and Message Broker. Have you got a pricelist?

I have seen that you have a course IMS Fundamentals. I could need that courseware for reviewing. Is that possible?

Best regards

Bengt-Åke
