

|   |
|---|
| <b>Chapter 1: Getting Started</b>   |
| You will learn: <ul style="list-style-type: none"><li>C Starting a QMF session.</li><li>C Relational framework - columns, rows, and tables.</li><li>C QMF help.</li><li>C What a DB2 database is.</li><li>C Building and editing queries.</li><li>C Simple join.</li><li>C Writing a QMF query.</li><li>C DDL, DML, and DCL.</li><li>C Why and when SQL or QBE should be used.</li><li>C Executing / modifying / tailoring a query.</li><li>C Modifying a form.</li></ul> |
| <b>Chapter 2: Saving Queries and Temporary Storage Areas</b>  |
| You will learn: <ul style="list-style-type: none"><li>C Managing queries.</li><li>C Temporary storage areas.</li><li>C Managing profiles.</li></ul>   |
| <b>Chapter 3: DB2/SQL and QBE</b>   |
| You will learn: <ul style="list-style-type: none"><li>C DB2 databases and objects.</li><li>C Format of SQL queries.</li><li>C Running a query.</li><li>C SELECT statement.</li><li>C IN or OR condition.</li><li>C Selecting on inequalities, negative conditions, part of a value.</li><li>C Arithmetic in queries.</li><li>C Built-in functions: SQL and QBE.</li><li>C Having clause.</li><li>C Combining columns from several tables.</li></ul>                       |

|  |
|--|
| <b>Chapter 4: Detailed Report Formatting</b>   |
| You will learn: <ul style="list-style-type: none"><li>C Creating and tailoring forms.</li><li>C FORM.OPTIONS panel.</li><li>C Manage control breaks.</li><li>C Format and place data.</li></ul>  |
| <b>Chapter 5: Table Editor</b>   |
| You will learn: <ul style="list-style-type: none"><li>C Edit tables with Table Editor.</li><li>C Change and delete rows in a table.</li><li>C Search with selection symbols.</li></ul>   |
| <b>Chapter 6: Advanced Topics</b>  |
| You will learn: <ul style="list-style-type: none"><li>C Use RUN command prompt.</li><li>C Function keys and commands.</li><li>C Create and maintain tables.</li><li>C Use synonyms for renaming a table or view.</li><li>C Maintaining data in a table.</li><li>C INSERT statement and changing values in a table</li><li>C Deleting rows from a table.</li><li>C Adding a new column to a table.</li><li>C Copying rows from one table into another.</li><li>C Deleting tables and views from the database.</li><li>C Adding a new column to a table.</li><li>C Displaying data from more than one table.</li><li>C Joining columns in two or more tables.</li><li>C Displaying data from more than one table.</li><li>C Merging data from two or more tables using UNION.</li><li>C Nesting SQL statements.</li><li>C Replacing null values in a report with other values.</li><li>C Concatenation operator.</li></ul> |
