%cmdcmdline%	3:56
%cmdextversion%	3:57
%errorlevel%	3:53-55
.BAT	1:5
.BAT versus .CMD	1:5
.CMD	1:5
/a Switch	2:49-50

**A**

Append Files	2:24
ATTRIB Command	2:56-58
Available Handles	2:19

**B**

Basic Script - Running	1:8
Batch Commands	1:4
Batch File - Force to Run as a Different User	3:52
Batch File - Initializing	3:10

**C**

call Command	2:41-44
Case Sensitive Sets	3:22
Clearing a Variable	1:13
Combining Commands	2:28-29
Command Grouping	3:33
Command Input (<)	2:21
Command Output (>)	2:22-23
Command Redirection Operators	2:17
Comments	3:5
CompareOp	3:48
Comparison Operators	3:49-50
Conditional Execution	2:54-55

**D**

Debug Code	4:5
Debug Techniques	4:3
Debugging Variables	4:4
Directories - Working with	3:30
Duplicating Handles	2:20

**E**

echo Command	3:6-8
ECHO OFF	1:10
Editing a Script	1:6
else Clause	3:58
EnableDelayedExpansion	3:12-15
endlocal	3:18
Expanding a Variable	1:12

**F**

Filter and Pipes Example .....	2:30-31
FILTER.....	2:6
FILTER Commands .....	2:7
Filter Example .....	2:30-31
FILTERS .....	2:4-5
find Command.....	2:13-14
for Statement.....	3:19-21
for Switches.....	3:24
for Variable Substitution.....	3:36-37

**G**

goto Command Extensions.....	3:43
goto Example .....	3:44
goto Statement.....	3:42
Group of Files - Specifying.....	3:34

**H**

Handles - Available.....	2:19
Handles - Duplicating.....	2:20
Help .....	1:9

**I**

if Command.....	3:45, 3:51
if exist - in Wildcard .....	4:9
if exist Test .....	4:6
If not exist Test .....	4:7
if Parameters.....	3:46-47
if test is not for Checking Folders .....	4:8
Initializing a Batch File .....	3:10
Input Redirection .....	2:9-10
Integer Arithmetic .....	2:51
Iteration - Simple using /a through a List .....	3:25-27

**L**

label .....	3:38-41
Line Counter.....	3:35
Looping through a Series of Values .....	3:28-29
Looping with if and goto .....	3:59

**O**

Overloading a Variable .....	3:16-17
------------------------------	---------

**P**

path Command.....	2:32
pause Command .....	3:60
pause Example.....	3:61
Pipe Operator.....	2:11-12
Pipe Operator (!).....	2:26-27
PIPES .....	2:4-5
PIPES and FILTERS .....	2:4-5
Pipes Example .....	2:30-31
Prompt for User Input .....	2:53

**R**

Recurring through Sub-directories.....	3:31-32
Redirecting Command Input (<).....	2:21
Redirecting Command Output (>).....	2:22-23
Redirecting Output to a File.....	2:8
Redirecting to the Bit Bucket.....	2:25
Redirection Operators.....	2:17-18
rem Statement.....	3:62
Run as a Different User - Force a Batch File.....	3:52

**S**

Script - Editing a Script.....	1:6
Scripts - Purpose.....	1:3
Series of Values - Looping.....	3:28-29
set Command.....	2:45-46
set Information.....	2:47-48
SETLOCAL.....	3:11
SETLOCAL Command.....	3:9
Setting a Variable.....	1:11
shift Command.....	3:64-66
shift Example 1.....	3:67
shift Example 2.....	3:68
Simple Iteration using /a through a List.....	3:25-27
sort Command.....	2:15-16
Special Symbols.....	3:63
START Command.....	1:7
Sub-directories - Recursing.....	3:31-32

**U**

User Input- Prompt.....	2:53
-------------------------	------

**V**

Variable - Clearing.....	1:13
Variable - Expanding.....	1:12
Variable Letter.....	3:23
Variable - Setting.....	1:11

**W**

Wildcard in if exist.....	4:9
Window Color.....	2:52
Window Title.....	2:52
Window Title and Color.....	2:52
Working with Directories.....	3:30

**X**

xcopy Command.....	2:33-34, 2:39
xcopy Command - Exit Codes.....	2:40
xcopy Command - Options.....	2:35-38
