%errorlevel%.....	3:44-46
.BAT versus .CMD	1:5
/a Switch.....	2:35-36
A	
Append Files	2:19
ATTRIB Command.....	2:41-42
B	
Batch Commands.....	1:4
Batch File - Initializing	3:9
C	
call Command	2:31-32
Case Sensitive Sets	3:17
Clearing a Variable.....	1:13
Combining Commands.....	2:22
Command Grouping.....	3:27
Command Redirection Operators	2:13
Comments	3:5
CompareOp.....	3:40
Comparison Operators.....	3:41
Conditional Execution	2:40
D	
Debug Code	4:5
Debug Techniques	4:3
Debugging Variables.....	4:4
Duplicating Handles	2:16
E	
echo Command.....	3:6-7
ECHO OFF.....	1:10
Editing a Script	1:6
else Clause	3:49
EnableDelayedExpansion	3:11-12
endlocal	3:14
Expanding a Variable	1:12
F	
FILTER.....	2:5
Filter and Pipes Example	2:23
FILTER Commands	2:6
find Command.....	2:11
for Statement.....	3:15-16
for Switches.....	3:19
for Variable Substitution	3:30
Force a Batch to Run as a Different User	3:43

G

goto Command Extensions	3:36
goto Example	3:37
goto Statement	3:35
Group of Files - Specifying	3:28

H

Handles - Available	2:15
Handles - Duplicating	2:16
Help	1:9

if Command	3:38, 3:42
if exist Test	4:6
If not exist Test	4:7
if Parameters	3:39
if test is not for Checking Folders	4:8
Initializing a Batch File	3:9
Input Redirection	2:8
Integer Arithmetic	2:37
Iteration (Simple) using /a through a List	3:20-21

L

label	3:31-34
Line Counter	3:29
Looping through a Series of Values	3:22-23
Looping with if and goto	3:50

O

Overloading a Variable	3:13
------------------------------	------

P

path Command	2:24
pause Command	3:51
pause Example	3:52
Pipe Operator (!)	2:21
Pipe Operator	2:9-10
PIPES and FILTERS	2:4
Prompt for User Input	2:39

R

Recurring through Sub-directories	3:25-26
Redirecting Command Input (<)	2:17
Redirecting Command Output (>)	2:18
Redirecting Output to a File	2:7
Redirecting to the Bit Bucket	2:20
Redirection Operators	2:14
rem Statement	3:53
Running a Basic Script	1:8

S

Script - Basic: Running.....	1:8
Script - Editing.....	1:6
Scripts - Purpose.....	1:3
Series of Values - Looping.....	3:22-23
set Command.....	2:33
set Information	2:34
SETLOCAL	3:10
SETLOCAL Command.....	3:8
Setting a Variable.....	1:11
shift Command.....	3:55-57
shift Example 1.....	3:58
shift Example 2.....	3:59
sort Command.....	2:12
Special Symbols.....	3:54
Specifying a Group of Files.....	3:28
START Command.....	1:7

V

Variable - Clearing	1:13
Variable - Expanding.....	1:12
Variable - Overloading a Variable	3:13
Variable Letter.....	3:18
Variable - Setting.....	1:11

W

Wildcard in if exist	4:9
Window Title and Color	2:38
Working with Directories	3:24

X

xcopy Command	2:25-26, 2:29
xcopy Command - Exit Codes.....	2:30
xcopy Command - Options.....	2:27-28
