

Chapter 1: Introduction

You will learn:

- Management components.
- ISPF services.
- Use of commands.
- System commands.
- Saving PF key definitions.

Chapter 2: Libraries

You will learn:

- Required libraries.
- Table and file tailoring libraries.
- CLIST and program libraries.
- LIBDEF.
- Message libraries.

Chapter 3: Introduction to ISPF Services

You will learn:

- Dialog organization.
- TEST MODE.
- Command invocation.
- Return codes.
- Display services.
- Panel definitions.
- Message definitions.
- Table services.
- General services.
- Row services.
- File tailoring services.
- Skeleton files.
- Variable pools.
- System variables.
- Variable services.
- Control services.

Chapter 4: Panel Definition

You will learn:

- Panel definition.
- Panel definition sections.
- Display layout.
- Syntax rules and restrictions.
- Panel format.
- Attributing Section:)ATTR
- Key words on ATTR statement.
- Attribute section.
- Functions.
- Panel body section.
- Panel width.
-)BODY SECTION
- Input fields.
- Variables.
- INIT and PROC sections.
- Initialization, reinitialization, and processing sections.
- Statement formats.
- Variable services.
- Input variable on a panel.

Chapter 5: Select and Display

You will learn:

- Select a panel or function.
- Display panels and messages.
- Return codes.

Chapter 6: Menus

You will learn:

- Menus
- NOCHECK keyword.
- EXIT keyword.
- Primary option menus.
- Primary option menu.
- Menu hierarchy.

Chapter 7: Control Variables

You will learn:

- Control variables.
- "Z" variable as field name placeholders.

Chapter 8: System Variables
You will learn: <ul style="list-style-type: none">• System variables.• Variable services.
Chapter 9: Message Services
You will learn: <ul style="list-style-type: none">• GETMSG - GET A MESSAGE.• SETMSG - SET NEXT MESSAGE.• SETMSG SERVICE.
Chapter 10: Tutorial
You will learn: <ul style="list-style-type: none">• Tutorial system.• ZTOP, ZINDEX.• Specifying help.• ZHTOP• ZCONT.• ZSEL.• Help/Tutorial Panels.
Chapter 11: File Tailoring
You will learn: <ul style="list-style-type: none">• File tailoring service.• Panel for skeleton file.• File tailoring skeleton (Sequential File).• Skeleton definitions.• Control statements.
Chapter 12: Testing and Debugging
You will learn: <ul style="list-style-type: none">• Dialog test facility.• Dialog test.• ISPF main menu.• Dialog test main menu.

Chapter 13: Table Services

You will learn:

- Table services.
- Table commands.
- Table creation.
- TABLE sections (ATTR, BODY).
- MODE section.
- Reinitialization section.

Chapter 14: Library, Log, and Control

You will learn:

- LIBDEF - Allocate application libraries.
- LIBDEF service syntax
- LOG - Write a message to the Log File
- Control service.

Chapter 15: System Variables

You will learn:

- Time and date.
- General.
- Terminal and PF keys.
- Scrolling.
- Table display service.
- Dialog error.
