Visual Basic and Microsoft Visual Studio are owned and copyrighted by Microsoft Corporation.

This Visual Basic Programming courseware product was a collaborative effort.

- The presentation outline for this course was developed by David Silverberg.
- The diagrams, examples, and training aids were generated by Sharif Ahmed and David Silverberg.
- The workshops were developed by Sharif Ahmed and David Silverberg.
- The content and deliverables of this courseware were reviewed by David Shapiro.
- The student workbook and related training aids are the copyright of Computer Education Techniques, Inc.

Organizations contracting to have SYS-ED present this course will be required to have licensed versions of the Microsoft Visual Studio. Screen captures have been generated from interactive sessions with the Microsoft Visual Studio. Step-by-step instructions correspond to context help and reflect information available in the public domain.

SYS-ED is always looking to improve the quality of its course handouts. Issues regarding the content need to be forwarded in writing (preferably by e-mail to support@sysed.com) inclusive of the chapter/appendix and page in the form of chapter x; page y.
